

Agenda

- ① what is LLD ?
- ② why LLD is important ?
- ③ structure of LLD module .

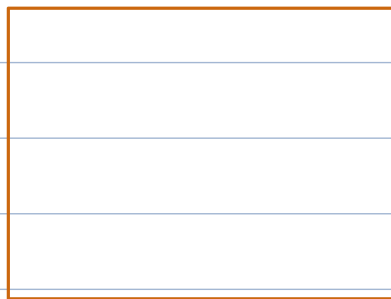

DSA

start: 9:05 pm
11:20 pm - content

What is LLD ?

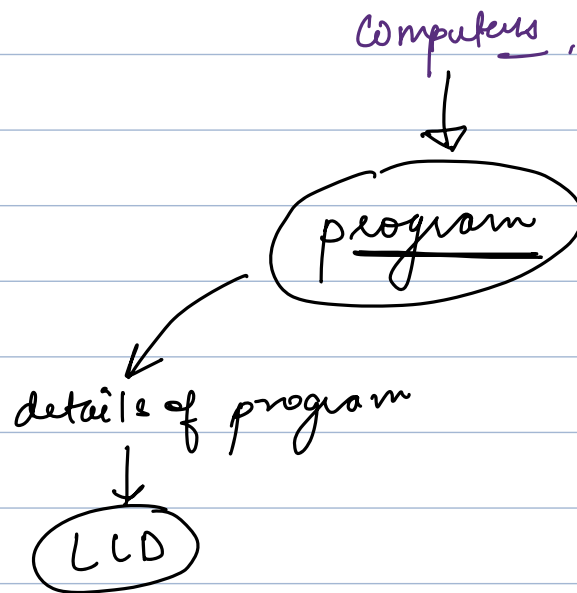

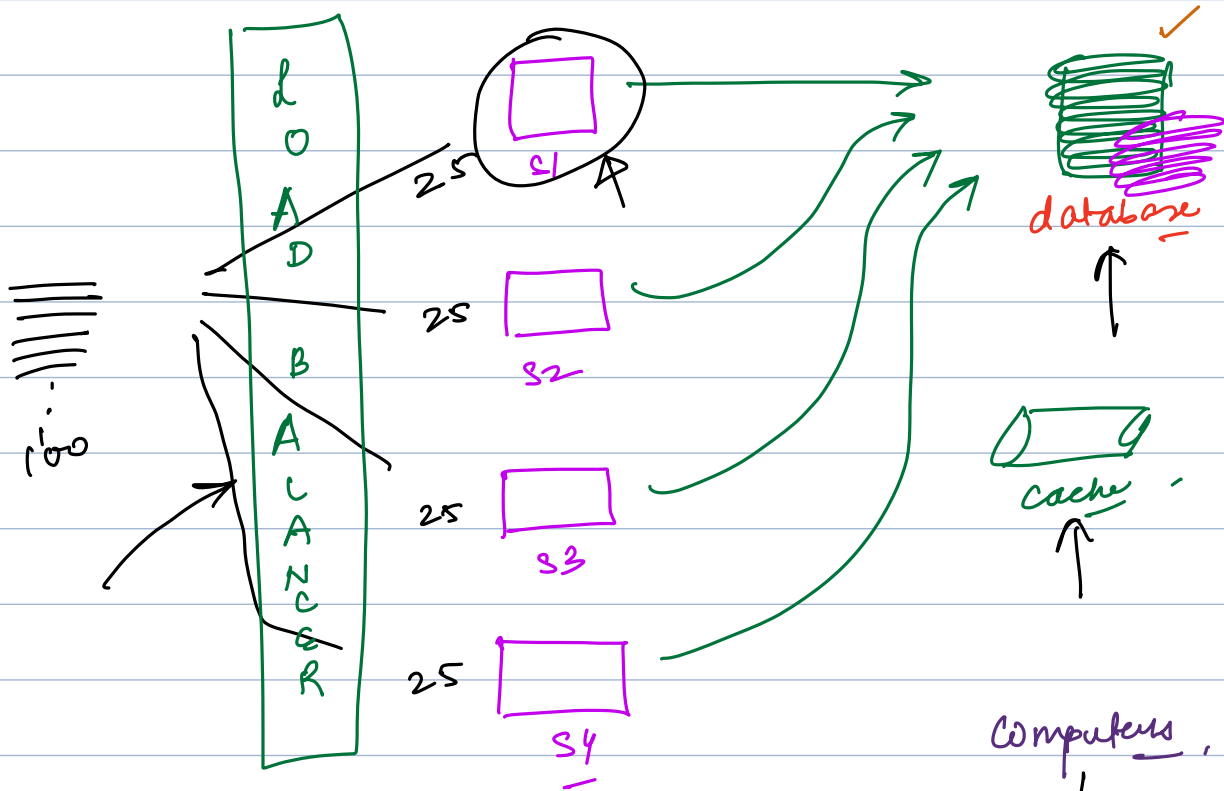

low level Design

H High
L Level
D Design

single server .

{ single point of failure .
load ↑ , huge waiting
User Experience

Why LLD is important?

day to day job

interviews

1-1½ LLD?
DSA

12% → actually writing code

Req gathering

Planning

Meetings

debugging

review code

documentation

Testing.

→ Design

understandable
readable
Reusable.

maintainable
extensible

easy to
add
new features

bugs
perf optimisation
dependencies update
